Packaging Creator
Professional software for the Valiani CMC range

Introducing the Valiani **M³ Packaging Creator**, an advanced software application specifically designed for the Valiani range of computerised mat board cutting machines for the production of packaging, display cases and other cardboard based 3D objects.

The **M³ Packaging Creator** is a comprehensive software application that helps Valiani customers not only provide more services, but reduce production time and wastage. **M³ Packaging Creator** has been created to extend your Valiani machines capability, to allow you to design, cut and fold, **over 350** fully customizable and parametric templates.
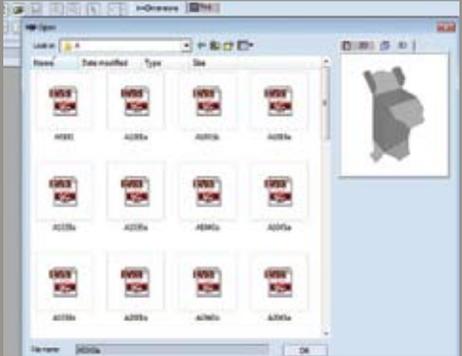

M³ Packaging Creator is fully integrated with Valiani **Future Mat Designer®**, allowing users to edit any designs, customize them and finally export to the **Future Mat Designer®** with cutting commands intact.

The **M³ Packaging Creator** is a development of an award-winning system that has been the leader in the design and production of packaging for the last 10 years, appreciated by thousands of end-users worldwide.

Features include

Measuring Tools
For quick check of actual sizes and convenient re-dimensioning designs.

Integrated Cutting Command
For quicker set up and to reduced downtime on the mount cutter.

Peace of Mind
Easy-to-Use Interface with Quick Set-up & Training. Free software updates and future optional plug-ins.

Intuitive Tools
